Students may follow the **Standard Schedule** OR the **Advanced Schedule**. Further details are [online](#).

Students are strongly advised to **follow these schedules as closely as possible** so that prerequisites are met for the following terms. Consequences of deviating from this schedule are the responsibility of the student.

\*ESD Electives consist of a minimum of 8 units. See the ESD Electives section on the back of this planner.

\*\*Any B-Hum (3 unit) course from the *Central Issues, Methodology, and Thought Process List with Appeal*, see: <https://coursys.sfu.ca/forms/ensc-appeal-form/> **OR**, any B-Hum (3 unit) course if GERO 300 has already been taken.

\*\*See **BPK Prerequisites** on back of this planner.

^Please check with your co-op coordinator to confirm that all co-op requirements have been met.

## Engineering Science and Design (ESD) Electives:

The Biomedical Engineering option currently recommends completion of GERO 300 (B-Soc/Central Issues course). Students (on the new curriculum) who have **already taken** GERO 300 must take the following courses to meet the complementary elective and breadth requirements: ECON 103 AND any 3 unit course from the SFU approved B-Hum list.

Student (on the new curriculum) who have **NOT yet taken** GERO 300 can appeal to substitute this course for a B-Hum course. Students granted a substitution must take the following courses to meet the complementary elective and breadth requirements: ECON 103 AND any 3 unit B-Hum course that is also on the Central Issues, Methodology and Thought Process list\*

\*This option requires an appeal (<https://coursys.sfu.ca/forms/ensc-appeal-form/>).

In addition, students in the Biomedical Engineering Option must complete **8 units** from the following:

- ENSC 426-4 High Frequency Electronics
- ENSC 427-4 Communication Networks
- ENSC 428-4 Digital Communications
- ENSC 429-4 Digital Signal Processing
- ENSC 470-4 Optical and Laser Engineering Applications
- ENSC 483-4 Modern Control Systems

## BPK Prerequisites:

- Biomed students wanting to enroll in BPK 201 without the prerequisite BPK 142, must email their advising transcript to the following FAS Advisor ([ugadvise@sfu.ca](mailto:ugadvise@sfu.ca)) to request enrollment.
